RPA Redevelopment (SSD-47662959)
Operational Noise Monitoring Report, Condition E8

Dear Ms Saunders

I refer to your letter dated 29 July 2024 advising the Planning Secretary of your intention of not conducting short-term noise monitoring for Stages OP1 and OP2 as required under condition E8 of SSD-47662959.

I note Stage OP1 relates to a temporary works (TW), being a small reception desk area, and OP2 an internal (level 2) refurbishment of a non-clinical space relating to the hospital's Cellular Molecular Therapies Unit (CMTU). Such works do not include any mechanical plant and equipment and are unlikely to contribute to overall operational noise levels for the hospital.

Accordingly, I agree with your above reasoning that short-term noise monitoring is not required for Stages OP1 and OP2.

I remind you to ensure that the Staging Report reflects the above commitment for the relevant stages of the project.

If you have any questions, please contact Jeremy Martin at jeremy.martin@dpie.nsw.gov.au.

Yours sincerely

Shiraz Ahmed
Team Leader - Social Infrastructure Projects
Infrastructure Management

As nominee of the Planning Secretary
