Subject: Major Projects – Gundry Solar Farm (SSD-48225958) (Goulburn Mulwaree) - WaterNSW Response to RTS

Hi Cameron,

WaterNSW appreciates the opportunity to provide comments regarding the Response to Submissions (RTS) for the Gundry Solar Farm (SSD-48225958).

As the development is located within the Sydney Drinking Water Catchment, sections 6.61(1) and 6.63 of the State Environmental Planning Policy (Biodiversity and Conservation) 2021 apply.

Water NSW has reviewed the following documents as part of the review of the RTS:

- *Gundry Solar Farm Submissions Report prepared by Umwelt (Australia) Pty Ltd (Report No. 30192/R01, dated June 2025)*
- *Gundry Solar Farm Amendment Report prepared by Umwelt (Australia) Pty Ltd (Report No. 30192/R04, dated June 2025)*
- *Appendix 1 Submissions Register prepared by Umwelt (Australia) Pty Ltd*
- *Appendix 2 Updated Management and Mitigation Measures prepared by Umwelt (Australia) Pty Ltd*
- *Appendix 4 Gundry Solar Farm Flood Impact and Risk Assessment prepared by WRM (Ref: 2067-02-B6, dated 17 June 2025)*

The above documents largely address WaterNSW's comments/requests in our letter dated 19 December 2024 (WaterNSW Ref: D2024/134598) and WaterNSW has no further comments.

WaterNSW welcomes consultation regarding the stormwater management plan, soil and water management plan and the site's operational environmental management plan as indicated in the Updated Management and Mitigation Measures referred to above.

Happy to discuss.

Cheers,
Nicole
