Dear Ben

**RE: ADDENDUM TO SSD MOD 6 OF SSD 4949-2011 – 157-163 CLEVELAND STREET,
REDFERN – SECTION 94F CONTRIBUTIONS**

We provide this addendum in relation to the above application lodged to the Department of Planning and Infrastructure on 4 November 2013. We are seeking to amend our proposal to also incorporate the attached modification to the awning on the Cleveland and Abercrombie Street elevations.

An awning was approved under the original application. The awning was later modified to a shorter, wider awning under Modification 4. The proposed awning is a similar length to the originally approved awning and similar width to the awning approved under Modification 4.

The proposed awning is considered to be an improved design option and will maximise the area for weather protection. It achieves suitable separation distances from the neighbouring traffic lights and power poles as shown on the attached plans.

We trust this information is sufficient for your purposes, however should you require any further details or clarification, please do not hesitate to contact the writer by telephone.

Yours sincerely
RPS
