Dear Minister

I refer to the Bulga Optimisation project and raise grave concerns about the damage this will do to my County. I do not want to see the mine given more and more consent to destroy the lands and waters and cultural heritage important to my people.

We spent months in discussions with Xstrata over wanting to save the Loders Creek grinding grooves. I don't believe that the mine has really examined all options to save the Grinding Grooves. I think that a business decision to get as much coal as possible is the driver for the final mining proposal.

I am not against all mining but I think the proposal is just too much. The saving of Loders Creek grinding grooves last time is now just an empty promise.

Please save and protect the Loders Creek Grinding grooves. We need some things for our kids

Yours sincerely *Robyn Lipnucki*
