Bulga Optimisation Project Submission- This is not a form letter

Dear Minister

It is with distress that the Bulga Coal project wants to destroy the Loders creek grinding grooves and conservation area they are located in. Despite telling the mine we want to have these saved they are still proceeding with trying to have the mine approved with the destruction of the area included in their plan

These grinding grooves are very special to us and the combined and increasing activity of mining is leaving very little grinding groove sites on the valley floor

Please do not approve their destruction. Removal is a destructive option the integrity is lost and our ancestors evidence damaged

Yours sincerely 

Address 16 motherwell Place, Edgeworth, NSW, 2285
