Subject: loders creek

David this is a very important area to us the WONNARUA PEOPLE and we know that there is areas that will be impacted on but we would want this place preserved for our future generations to be able to access it and see. We have been losing a lot of important areas to mining and we do not want that to happen here. What we are after is a little preservation to our CULTURE AND HERITAGE and not being lost to mining.

Regards
Tom Miller WONNARUA ELDER
