

BULGA OPEN CUT

GLENCORE

06 May 2026

Heidi Watters
Team Leader - Compliance
Department of Planning, Housing and Infrastructure (DPHI)

Dear Heidi,

Bulga Coal review of strategies, plans and programs

In accordance with SSD 4960 Schedule 5 Condition 5 and DA 376-8-2003 Schedule 6 Condition 5, Bulga Coal has reviewed all strategies, plans and programs following the submission of the Bulga Coal 2025 Annual Review on 31 March 2026. No plans required a revision as a result of this review.

However, Bulga Coal is currently updating the Water Management Plan to incorporate feedback from DCCEEW Water. Additionally, we are awaiting a response from the DPHI regarding the Air Quality and Greenhouse Gas Management Plan (SSD-4960-PA-95, RFI-80716707), which was submitted for approval on 30 June 2025.

Please do not hesitate to contact me should you require further clarification.

Kind regards,

Ralph Northey
Environment and Community Manager
