

## **PUBLIC NOTICE**

### **PROPOSED MODIFICATIONS TO MURRAY-DARLING BASIN OPERATIONS**

#### ***ENVIRONMENTAL PLANNING AND ASSESSMENT ACT 1979 (NSW)***

Tronox Mining Australia Limited is the proponent of the following mineral sands mining and processing operations (collectively known as the Murray-Darling Basin Operations):

- Broken Hill Mineral Separation Plant – approved under Part 4 of the NSW Environmental Planning & Assessment Act 1979 (**EP&A Act**) (Development Consent [DA 345-11-01]);
- Atlas-Campaspe Mineral Sands Project – approved under Part 4 of the EP&A Act (Development Consent [SSD \_5012]);
- Snapper Mineral Sands Mine – approved under Part 3A of the EP&A Act (Project Approval [06\_0168]); and
- Ginkgo Mineral Sands Mine – approved under Part 4 of the EP&A Act (Development Consent [DA 251-09 01]).

On Thursday, 14 April 2022, Tronox Mining Australia Limited lodged four modification applications for the **Ore Transport and Processing Modifications** (the Proposed Modifications) with the NSW Department of Planning and Environment seeking approval to modify the four Murray-Darling Basin Operations' State Significant Development consents pursuant to section 4.55(1A) of the EP&A Act. The consent authority for the Proposed Modifications will be the NSW Minister for Planning.

The Proposed Modifications include changes to the Murray-Darling Basin Operations to allow for the short-term transport of ore (rather than mineral concentrate) from the Atlas Campaspe Project to the other Murray-Darling Basin Operations sites for processing.

The applications for the Proposed Modifications and accompanying documents can be accessed on the NSW Major Projects Planning Portal (<https://www.planningportal.nsw.gov.au/major-projects>).

For further information relating to Proposed Modifications, please contact:
