Hi Brittany,

Council have no objections to the proposed modifications detailed in the modifications report. It is noted that the Modifications would not change the approved haulage route, haulage vehicle type or haulage vehicle frequency.

The impact to roads from the increased vehicle movements is covered by Conditions 4 and 5, Schedule 3 of Development Consent (SSD_5012).

Council will monitor road conditions and liaise with Tronox for maintenance contributions.

Regards,

Reece Wilson
Director Shire Services
