Notes 1: Site complexes listed in this table comprise both open artefact sites and hearth/s. For the purposes of the Aboriginal Cultural Heritage Assessment, hearths contained within site complexes are to be treated as individual site elements and in the first instance, are to be avoided as per the below recommendations for management as they apply to standalone hearths.

Note 2: Surface collection will be undertaken to the extent the site overlaps with the final Development Corridor, in the event that these sites cannot be avoided through micro-siting.

Note 3: Areas of PAD listed in this table are assumed to retain surface objects also on the basis of reporting by NOHC (2022).
