Dear Mr Tsambos

SEAR Input – Panorama BESS (SSD – 50587460)

I refer to your request for input into the SEARs for the Panorama BESS project.

In response I provide the following

1. The provided draft SEARs provides a reasonable summary of the issues to be addressed.
2. The property has frontage to the Mid Western Highway. Access from the Highway particularly during construction phase will require consideration.
3. Where alternate access routes are to be used (eg Evans Plains Road) these should be considered noting that they are predominantly gravel roads.

If you require any further information, please contact Council's Manager Development Assessment, Mr Richard Denyer, on 02 6333 6211.

Yours faithfully

R Denyer
