Subject: RE: State Significant Development (SSD-50629707) - The Plains Wind Farm - Advice on SEARs
Date: Wednesday, 30 November 2022 3:48:42 PM

OFFICIAL

Hi Kurtis,

For all wind farm applications, we require an Aviation Impact Statement (AIS) report be submitted along with the application. Please see [Developments at and around airports - Airservices \(airservicesaustralia.com\)](#) for guidelines on Wind Farm development applications and information we require for an Airservices aviation assessment.

Please have the proponent follow the guideline and submit the information to the Airport Developments mailbox airport.developments@airservicesaustralia.com, together with any supporting documents, spreadsheet, drawings and CAD files which will assist us with the assessment.

Please note that we cannot commence the assessment process until we have received the AIS and normally our process takes approximately 6 weeks to complete.

A copy of Airservices response will be forwarded to CASA.

Kind regards,

Richard Tomlinson
Airport Development & Engagement Advisor
