Subject: Dinawan Wind Farm – Amendment of Application

Dear Mr Kasby

I refer to the Amendment Report which was submitted on 20 August 2025 in accordance with the *Environmental Planning and Assessment Regulation 2021* (the Regulation) for Dinawan Wind Farm (SSD-50725708).

The Amendment Report has requested the following changes to the project application:

- A reduction in the project area, development corridor and development footprint;
- A reduction to the number of wind turbine generator locations being considered, from 267 to 200;
- A reduction in tip height from 280 m to 250 m;
- Alterations to the location of some infrastructure, including switchyards, transmission infrastructure, meteorological masts, site access, construction compounds, laydown areas; and accommodation facilities; and
- Minor alterations to haulage routes, nomination of 16 borrow pits and updates to proposed OSOM and light vehicle routes.

The Department has considered the information provided and notes that the proposed amendments are in accordance with Government agency advice and submissions on the project and aim to reduce the overall impacts of the project.

Accordingly, as delegate of the Independent Planning Commission, I agree to the amendment of the development application for the project, as detailed in the Amendment Letter.

If you have any questions, please contact Jessica Watson on 02 9373 2845 or via email at jess.watson@dpie.nsw.gov.au.

Yours sincerely
