Subject: Survey plan for approved Limits of extraction – Schedule 2, Condition 23

Dear Ms Higgins

I refer to your response to the request for further information dated 29 August 2024. In this document you identify that land subject to the development consent has been subdivided, and other lands have been sold. Consequently, the land to which the development consent applies, and which Holcim has control over is no longer accurately described in the development consent.

Further the survey plan submitted provides no clarity on where the extraction limit is in relation to the land to which the development consent applies, or the originally approved development footprint described in the relevant environmental impact statement or modification application reports.

Consequently, you are requested to lodge a modification application to ensure the development consent accurately applies to land relevant to the quarrying operations, and to clarify the surveyed extraction limit against the approved extraction limits.

If you wish to discuss the matter further, please contact Carl Dumpleton on 9274 6283 or carl.dumpleton@planning.nsw.gov.au.

Yours sincerely

Jessie Evans
