**Crawfords Ammonium Nitrate Storage and Distribution Facility (SSD-5119)
Air Quality and Greenhouse Gas Management Plan, Conditions 33 and 34**

Dear Mr Grech

I refer to the revised Air Quality and Greenhouse Gas Management Plan (AQGGMP) submitted to the Planning Secretary for approval in accordance with conditions 33 and 34, Schedule 3 of SSD-5119 (as modified).

I note the AQGGMP:

- was prepared by a suitably qualified consultant;
- was reviewed by the Applicant and no issues were raised;
- consolidates and updates the relevant chapters of the original Operational Environmental Management Plan (OEMP) dated August 2013, related to air quality and greenhouse gas management, and is generally consistent with those parts; and
- is now a stand-alone plan that is appended to the current OEMP, Version 6, dated 15 December 2023 as Appendix L.

Accordingly, as nominee of the Planning Secretary, I approve the AQGGMP, Version 2 dated October 2025, under condition 33(b) and condition 34(b) of MP07_0066.

I note that the next scheduled review of the AQGGMP will take place in February 2026. Please ensure that you seek the views of the City of Newcastle Council and the NSW Environmental Protection Authority, and that their comments are incorporated into the AQGGMP as part of the next update.

Please note that if there are any inconsistencies between the submitted AQGGMP and the conditions of consent, the conditions of consent will prevail.

Also, please ensure that the revised AQGGMP is placed on the project website at the earliest convenience, if already not done so.

If you have any questions, please do not hesitate to contact Hala Fua at hala.fua@planning.nsw.gov.au.

Yours sincerely
