Dear Genevieve

**Mandalong Mine (SSD 5144) MOD 4**

I refer to your email dated 28 November 2016 inviting the Division of Resources & Energy (the Division) to provide comments on the Mandalong Mine (SSD 5144) MOD 4.

The purpose of the review is to determine whether the applicant has provided sufficient information in the SEE to assess the potential impacts of Project Mandalong Mine SDD5144- MOD4.

The Division notes that no SEARS were issued for the LW22-23 Extension Modification.

The Division has reviewed and assessed the adequacy of information in relation to Mandalong Mine (SSD 5144) MOD 4 requested by the Department of Planning and Environment (DPE) to assess the potential impacts of the project and provides the following advice.

The information provided does adequately identify and address risks to the environment associated with the Modification. The proposed modification has the same surface footprint as currently approved under SSD-5144 and there is no change to the final land use it is considered that no further information is required.

Should you have any enquires regarding this matter please contact Steve Cozens, Senior Project Officer, Royalty & Advisory Services on 9842 8573.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Zane West'.
