To Whom It May Concern

I wish to make a submission in the name of Bengalla Continuation Project, application number (SSD 5170).

I support the proposal of the continuation of Bengalla mining westward.

My reasons for this continuation is so that it can provide certainty and continued employment for myself and fellow workers. I have a wife and two children to support and this would certainly add to us feeling more safe in our jobs.

This area has already been hit hard with so many people laid off. It is not only affecting mine workers and their families, but is impacting everyone in these towns and all other stores in the area. If Bengalla closes down more jobs will be lost which affects other small businesses around town as well as house values ect.

Kind regards

Garry and Melissa Rohrich
