**DEVELOPMENT CONSENT SSD-5248 MOD 2
CONDITION D7 – REVIEW OF PLANS, STRATEGIES, PROGRAMS**

Dear Bruce,

We refer to the abovementioned Condition. Gazcorp confirms it has reviewed the approved plans, strategies and programs at the following times:

- The approval of Mod 1 (23 December 2021)
- The submission of the Compliance Monitoring and Reporting Program (14 October 2022); and
- The approval of Mod 2 (22 December 2022).

We advise at the time of the abovementioned milestones, several of the Stage 1 pre-construction plans, strategies and programs had not been approved by the DPIE. The milestone events therefor did not result in the need to amend any of the approved plans, strategies and programs as the plans had taken into consideration the proposed Mods, and Construction had not yet commenced.

Should you wish to discuss above, do not hesitate to contact me.

Yours sincerely,

Tim Sachs
