Hi Natasha,

Will the communal deck on the western side level 15 of tower 1 be able to see southwards into the units of 157 Redfern st?

I'm concerned people will be able to see into our bedroom and living room from the communal rooftop deck. Is there a way to tell from the plans if this will be possible? I've had a look but am still unsure. I assume it will depend on the building material and wall height used on the south side of the communal area.

Thanks
Ben
