PO Box 141

Rylstone, NSW
2848

Content:
Objection to the Dubbo Zirconia Project:

We object to the proposed mine because:

the proposal is not supported by a proper cost benefit analysis

the project would disturb endangered ecological communities

the impacts on groundwater have not been adequately investigated, and are unclear

the mine's demand for water will adversely affect the Macquarie River and other waterways

the costs of infrastructure have not been adequately dealt with, e.g. infrastructure required for transport and energy.
