

Dear Pragya,

Thank you for providing the Observatory with an opportunity to comment on the draft Conditions of Consent.

The Observatory would like to suggest that condition B21 (b) (ii) be modified.

It currently reads

(ii) does not shine above the horizontal; and

We suggest an alternative

(ii) follows the 10 principles in section 4.1 of the Dark Sky Planning Guideline; and

The Dark Sky Planning Guideline is available from

<https://www.planning.nsw.gov.au/sites/default/files/2023-03/dark-sky-planning-guideline.pdf>

Please do not hesitate to contact me if you have any questions.

Kind Regards,

Chris Lidman
