Ms Amy Robertson
NSW Department of Planning and Environment
GPO Box 39
SYDNEY NSW 2001

Amy.robertson@planning.nsw.gov.au

Dear Ms Robertson

**Kembla Grange Resource Recovery Facility Upgrade (SSD 5300 MOD 1)
Comment on the Environmental Assessment (EA)**

I refer to your email of 14 March 2017 to the Department of Primary Industries (DPI) in respect to the above matter. Comment has been sought from relevant divisions of DPI. Views were also sought from NSW Department of Industry - Lands that are now a division of the broader Department and no longer within NSW DPI.

Any further referrals to DPI can be sent by email to landuse.enquiries@dpi.nsw.gov.au.

DPI has reviewed the Modification Request and accompanying EA and provides the following recommendations:

- The proponent should advise if any works associated with the proposed modification may disturb riparian land along the unnamed tributary of Gibsons Creek. If so, in order to assist DPI in assessing potential impacts and advising solutions and mitigation proposals, the proponent should provide details including:
 - o a scaled plan which shows the location of:
 - the un-named tributary of Gibsons Creek
 - top of bank
 - the riparian corridor width along either side of the creek
 - the footprint of the proposed modification works within the riparian corridor
 - the total area of riparian land that will be temporarily and/or permanently affected
 - the site boundary
- The Landscape Management Plan, which is required to be updated following a modification to the consent, should include details on the rehabilitation of riparian vegetation.
- All works undertaken on waterfront land should be conducted in accordance with [DPI Water Guidelines for Controlled Activities \(2012\)](#).

Yours sincerely

Mitchell Isaacs
Director, Planning Policy & Assessment Advice
