Mr Kelly McNicol  
Team Leader – Industry Assessments  
Department of Planning, Industry & Environment  
GPO Box 39  
SYDNEY NSW 2001

Attention: Ms Susan Fox

3 July 2019

Dear Mr McNicol

**SSD5300 MOD 2 – 50 Wyllie Road, Kembla Grange – Comments on response to submissions**

Thank you for your emails to the Environment Protection Authority (EPA) on 17 and 26 June 2019 providing further information on SSD5300 MOD 2 for 50 Wyllie Road, Kembla Grange. We note that the applicant has responded to the EPA's comments that were provided to the Department of Planning and Environment (DPE) on 18 December 2018.

We have reviewed the response to submissions and we note that the applicant has accepted most of the proposed consent conditions provided by the EPA.

In our initial response, we recommended that condition A6 be changed from "calendar year" to "in any 12-month period". Our preference is that this condition be changed in line with our initial response, however, we note that the applicant has expressed their opposition to the proposed change.

The applicant has responded to and accepted each of our remaining comments and proposed conditions. As such, we do not have further comments to make.

If you have any questions about this matter, please contact Greg Frost on (02) 4224 4113.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Megan Whelan'.
