**Subject:** Amendment of Mallee Wind Farm (SSD-53293710)

Dear Mr Stone

I refer to the Amendment Report which was submitted on 31 March 2026 in accordance with the Environmental Planning and Assessment Regulation 2021 (the Regulation) for Mallee Wind Farm (SSD-53293710).

The Amendment Report has requested the following changes:

- addition of proposed OSOM routes to originate from the Port of Portland in Victoria;
- removal of OSOM routes originating from Port of Newcastle;
- increase of the maximum proposed Wind Turbine Generator (WTG) blade length from 85 metres (m) to 91 m, with no change to the proposed tip height of 280 m; and
- flexibility for subdivision and boundary adjustments.

The department has reviewed the Amendment Report and is satisfied it provides the necessary information and sufficient justification for the amendment.

Accordingly, I as delegate of the Independent Planning Commission, approve the application for the amendment.

If you have any questions, please contact Luke Thorburn on (02) 8275 1283 or via email at [luke.thorburn@dpie.nsw.gov.au](mailto:luke.thorburn@dpie.nsw.gov.au).

Yours sincerely,

Nicole Brewer

Director, Energy Assessments
