Barangaroo Central Waterfront Promenade and Interim Public Domain Works - Response to Submission from SPC

Dear Fleur,

Hyder has reviewed Sydney Ports Corporation (SPC) response to the Barangaroo Central Waterfront Promenade and Interim Public Domain Works dated 21st December 2012.

Our comments to SPC's submission are addressed below:

Appendix 13 (p10) – text regarding navigation aids is inconsistent with the drawing provided in Appendix B. The drawing in Appendix B has been discussed with the Harbour Master and it is Sydney Ports' understanding that works indicated within this drawing will be implemented. Confirmation of this should be provided by BDA.

Navigational aids for the Northern Cove as shown on TE-HYD-P-S3-5103-G in Appendix B have been confirmed and we have been advised by the contractor that these will be implemented, i.e. two new floating navigational mark west cardinals (white flashing) with added top mark and lighting (white rhythm very quick) located on the east and western side of the Northern Cove and a new floating cautionary marker for shallow water (yellow flashing) located at the centre of the Northern Cove mouth.

Unrelated to SPC's submission, Hyder would like to note that Appendix 13 report has been revised to address that the original Northern Cove design depth of RL-4mAHD has been revised to RL-3mAHD during tender design phase.

In addition, BDA has noted that the term 'Barangaroo Central' shall now be referred to as 'Central Barangaroo'. This modification shall be reflected onto the Appendix 13 report.

Yours sincerely

Sam Harris
