Dear Sir

**SSD5537: Hawson's Iron Ore Project; Lot 96 DP 760494, Lot 2 DP754514, Lot 606 DP761564,
Lot 1 DP 754514, Lot 3508 DP 765800
Request for input into the revised Secretary's Environmental Assessment Requirements (SEARs)**

Thank you for the email dated 30 October 2019 referring the above application to Roads and Maritime Services for input into the revised Secretary's Environmental Assessment Requirements (SEARs)

Roads and Maritime have reviewed the revised documentation in support of the proposal and understand the scope of works for the development is consistent with the previous request for SEARs except for the addition of 100MW photovoltaic electricity generating works as a part of the proposed extractive industry.

The input into SEARs provided on the 11 April 2017 remains applicable to the proposed development (see copy attached), however, the construction works associated with the 100MW photovoltaic electricity generating works will need to be included within the preparation of the Traffic Impact Study.

Should you wish to discuss further please contact Alexandra Power, Development Assessment Officer on (02) 6861 1428.

Yours faithfully

Ainsley Bruem
