Dear Sir/Madam

Development Referral No. DN19/0052

Proposal: Notification of Modification Application Kurnell Refinery Conversion
Project SSD 554 MOD 6 - Captain Cook Drive, Kurnell

Property: 160-166 Captain Cook Drive, Kurnell

I refer to the above development notification which was referred to Council for comment in accordance with the State Environmental Planning Policy (State and Regional Development) 2011.

Council has reviewed the proposal and considers that the modification application can be supported as it relates specifically to the extension of the timeframe of works. Council does not have specific comment at this time but emphasises the specific matters to be satisfied on completion of works; namely the provision of the Containment Cell Final Report, Long-Term Environmental Management Plan and Validation Report for the Pipeways.

If you need any clarification of the above comments, please contact Council's Environmental Assessment Officer, Leanne Mariani on 9710 0149 or email lmariani@ssc.nsw.gov.au and quote the application number in the subject.

Yours faithfully

Leanne Mariani
