Subject: Western Coal Services (SSD-5579) – Noise Management Plan

Dear Ms Howat,

I refer to the Noise Monitoring Program (NMP) (Revision 0 dated November 2025) submitted to satisfy Schedule 3, condition 9 of the development consent for the Western Coal Services Project (SSD-5579). It is acknowledged that Springvale Coal Pty Ltd is decoupling the project from the regional management plans, and that the NMP is a new site-specific plan.

I note that the NMP:

- has been prepared in consultation with the EPA;
- describes acceptable noise mitigation measures;
- describes the noise management system and monitoring program;
- describes the maintenance scheduled for the overland conveyor; and
- contains the information required by conditions of consent.

Consequently, the Department is satisfied that the requirements of the relevant conditions of consent (SSD-5579) are met.

You are reminded that if there are any inconsistencies between the NMP and the conditions of approval, the conditions prevail.

Please ensure you make the document publicly available on the project website at the earliest convenience. If you wish to discuss the matter further, please contact Gabriel Wardenburg on (02) 9585 6810.

Yours sincerely
