Dear Mr Nicholls

**Airly Mine Extension Project (SSD 5581)
Mining Operations Plan 2018 to 2024 (Amendment A)**

I refer to your letter dated 31 March 2020 inviting comments from the Department on an amended Mining Operations Plan (Amendment A) (MOP) for the Airly Mine Extension Project (SSD 5581). I note that this plan has been consolidated to satisfy the Rehabilitation Management Plan requirements of Condition 27 of Schedule 4 of SSD 5581.

The Department has carefully reviewed this document and provides the following comments:

- table 12 should be updated to reflect the Resources Regulator as the approval authority of the Rehabilitation Management Plan. A similar change should be made in Section 1.5.2 (1st paragraph);
- table 12 should be amended to reflect updated condition numbers in SSD 5581;
- the reference to 'DRE' in Table 14 should be updated to the Resources Regulator; and
- the areas in Table 26 should be reviewed as they do not sum to the overall total.

If you wish to discuss the matter further, please contact Andrew Rode on 02 8289 6744 or at Andrew.Rode@planning.nsw.gov.au.

Yours sincerely
