

This architectural site plan illustrates the proposed building footprint and its integration into the existing campus environment. The plan shows a large, rectangular building footprint with a central courtyard area. Surrounding the building are various parking lots, pedestrian walkways, and existing campus infrastructure. A prominent feature is a large, circular paved area adjacent to the building. The plan also shows the proximity of the building to the San Diego Bay and the University of California, San Diego campus.

This is a detailed architectural site plan of the University of California, Berkeley campus. The plan shows a complex network of buildings, roads, and green spaces. A large, prominent blue area in the upper right quadrant represents a body of water, likely the San Francisco Bay. The plan is oriented with North at the top. The drawing uses black lines on a white background to delineate structures and pathways. The text 'UNIVERSITY OF CALIFORNIA' is visible in the upper left corner, and 'BERKELEY' is visible in the lower right corner. The plan includes numerous labels for buildings and areas, such as 'DOWNS' and 'UPPER CAMPUS'. The overall layout shows a dense urban environment with a mix of academic, residential, and administrative buildings.
