

Hi Fiona,

The City will not be making a submission on Mod 3 to the SICEEP Core Facilities DA.

History would show that:

- (a) the City originally requested a terminating feature at the end of the Boulevard (p42 City of Sydney submission, 22 May 2013); and
- (b) the Department agreed that the termination could be better resolved (p63 Director-General's Assessment Report).

Hence the creation of the condition of approval.

However, we leave the assessment of the modification to the Department's discretion in relation to the matters around ownership and project boundaries raised by the Applicant.

Regards,

Russell Hand
