

### Public Authority Response

Tuesday, 14 July 2020 3:05:54 PM AEST

Notes:

Crown Lands has the following comments for this proposal:-

Any Crown land and/or Crown road impacted by the Water Supply Pipeline, including infrastructure to support the mine proposal, (where not subject to a Mining Lease) will require authorisation under the Roads Act 1993 and or the Crown Land Management Act 2016 prior to any activity taking place within such lands. This would most likely take the form of a licence and public use and access of Crown land would need to be maintained. The licence must be procured prior to any works taking place.

- 1. All Crown land and Crown roads within a Mining Lease must be subject to a Compensation Agreement issued under Section 265 of the Mining Act 1992, to be agreed and executed prior to any mining activity taking place. The Compensation Agreement may include conditions requiring the Mining Lease Holder to purchase Crown land impacted on by mining activity.
- 2. All Crown land and Crown roads located within an Exploration Licence, where subject to exploration activity, must be subject to an Access Arrangement issued under Section 141 of the Mining Act 1992, to be agreed and executed prior to any exploration activity taking place.
