Draft Port Macquarie-Hastings Council Waste Strategy 2017 - 2024

Consultation has concluded

Waste generation, recovery, treatment and disposal is a significant issue in the world today, with environmental, social and economic implications. Have your say about the strategic planning for waste management services and facilities in our local area.

The *Port Macquarie-Hastings Waste Strategy: 2017 – 2024* is designed to provide a framework and an informed and sustainable direction for all areas of Council's waste and resource management activities over the next eight years. It has been developed to focus on specific and unique local issues and challenges, building upon the momentum gained through the implementation of the previous *Waste and Resource Management Strategy*, which concluded in 2015.

Your feedback will help us:

- To increase best practice resource recovery within our local area
- To secure the long term future disposal capacity for the community while continuing to reduce waste to landfill
- To determine what the community feels should be our priority
- To identify any gaps or problem areas

To get involved and have your say:

- You can have a look at the strategies (located in the document Library on the right):
 - The old strategy "2011-2015 Waste and Resource Management Strategy"; and
 - The new draft strategy "Waste Strategy 2017 - 2024" (to be adopted in 2017).
- To share your views about the new draft strategy use the **Submission** tab below or send an email or post your response to:

The General Manager
Port Macquarie-Hastings Council
PO Box 84
Port Macquarie NSW 2444

Email: council@pmhc.nsw.gov.au

For more information contact Tim Molloy on (02) 6581 8111

Submissions close Friday 14 April 2017

SUBMISSION

Share your views about the new draft Waste Strategy

Writing a submission is one way of sharing your views and opinions with Council. All submissions are considered before making a decision and your submission may be included in a report to Council. **Submissions close 14 April 2017**.

Note: Submissions and petitions are public information and may be made public. If you wish to have information in your submission suppressed, you will need to request this in writing.
