The General Manager
AGL Energy Limited – Head Office
Locked Bag 1837
St. Leonards, NSW 2065

Dear Sir,

Re: Coal Seam Gas Drilling – Camden Gas Project

We write, as members of a Religious Order, to express our grave and very real concerns about AGL's Camden Gas Project's proposed northern expansion.

We strongly oppose it for the uncertainties this drilling work will impact on, particularly health issues (and certainly on environmental ones too) in the long-term – and, more so, as NSW Health have confirmed just that. It is much too great a risk to take when dealing with the sacredness and preciousness of human lives!

We beg you to hear the desperate voice of the general public and our personal plea and ask that you kindly re-consider your proposed plans to drill in these enormously built-up areas of Campbelltown and its surrounds.

Thanking you in anticipation of the continuing great integrity your company surely upholds.

Yours sincerely,

Sr. Catherine Teo
Abbess
