Mount Owen
Continued Operations.
Ricki McBride

We are putting in a submission
for the extensions of Mount Owen mine extensions.

1. Owen main concern at present is the dust now is getting into our house & our domestic water supply.
2. Later on as you progress we are concerned about the noise of machinery & blasting.
3. As there is a lot of rock in this area, we are worried about the blasting could affect the structure of our house.
4. What help could you give to combat this problem.

Regards.
