4 Gamay Close

Muswellbrook, NSW  
2333

**Content:**

As a Thiess employed Mining Engineer that has worked at Mt Owen for the past 6+ years I can confirm ensuring the safety of people and looking after the environment are non-negotiable factors of any mine engineering work I have been involved in. Is a result, I'm proud to be the member of a team that always strives to maximise efficiency to minimise resource usage and has an outstanding environmental record.

On a more personal level, the Mount Owen mining project has provided my family and many other employees' families a decent income. In addition to funding basic living expenses, this income allows our families to spend cash in our local community and buy Australian made products resulting in further indirect employment of more Australians. Australians also benefit from royalties and significant direct and indirect tax revenue that is spent on behalf of all Australians by the Government. We (my family and I) are hoping the people of Australia will recognise the outstanding environmental record the site has earned and the huge value the continuation of the project will provide to all Australians.
