Content:

I am currently employed with Thiess as Maintenance Manager at Mount Owen Mine and support the extension of the project. My family and I have now been living in Singleton for the past 7 years and have become actively involved in the local community and would like this to continue.

It is now obvious in the town and surrounding community that local established business's are now struggling and unfortunately some closing due to the downturn in the mining industry and families leaving the local area to seek further employment. Therefore I believe for the Hunter Valley to remain sustainable and financially strong for both large and small companies mining needs to be part of the community. The loss of another mine in the area will lead to further reductions in local business and the community population which will have a "knock on" effect to the whole area.
