**Content:**

I am in favour of approving the mine extension, I work at Mt Owen obviously in the mining industry and live in Singleton. We shop locally and support local business and community, we pay council rates and our children attend a local childcare and we intend them to go to local schools. The continuation of this project effects all the local businesses that we support and the rest of the people that work at the mine support. To reject this extension will mean that we'll likely need to move out of the area and be a huge loss of revenue from all the employees that support the local community.

Current operating systems used at Mt Owen with respect to noise, dust and vibration are highly regarded within the industry and the mine has won several awards for outstanding rehabilitation quality. It is the intent of the team on site to strive for the best quality in all aspects of the operation and reducing environmental impact is one of those areas.

Regards,

Wayne Bartlett
