, NSW
2330

Content:

As a Singleton resident and a Mt Owen employee, I strongly support the Mt Owen Continued Operations Project. Not only will this project promote the life of mine considerably; it will increase local jobs, inject funds into the community through donations and generate hundreds of millions of dollars into the local economy. Singleton is suffering greatly from the downturn in the mining industry, and an extension such as this is the perfect opportunity to support the industry into the future. I believe the challenges, risks, environmental impacts and costs of the project have been accurately and adequately addressed and the benefits of the project far out weigh any negative concerns. Both the local community and mining industry need this expansion to survive.
