East Maitland, NSW
2323

Content:

I object to the MT Owen continued operation Project for the following reasons:

- there will be a further deterioration of the air quality which is currently exceeding the standard for PM10 emissions
- the noise levels will impact on an additional 20 properties
- the nationally endangered swift parrot and spotted quoll will be seriously impacted upon
- climate change impacts have not been taken into account
- cumulative impacts on Glennies Creek and the Hunter River have not been considered
- the final land form will have 3 voids.
