Subject: Fwd: SSD 5850 - Mount Owen Continued Operations Project - Response to Submissions

Hi Kane

DRE has reviewed the relevant sections of the Mount Owen Continued Operations Project EIS Response to Submissions dated June 2015.

In order to provide clarity DRE recommend that the proposed condition on Blast Management Protocol be reworded to:

Blast Management Protocol

The proponent must prepare and implement a Blast Management Protocol which should be incorporated into the Blast Management Plan and submitted to the DRE prior to the commencement of mining. The Blast Management Protocol must be developed in consultation with Integra Underground Mine and detail the procedures between the Mount Owen Open Cut Operations and the Integra Underground mine for any blasting within 500 metres of the currently approved and development underground workings.

DRE has no other comments.

Regards

Julie

Subject: SSD 5850 - Mount Owen Continued Operations Project - Response to Submissions

All,

Mount Owen Pty Limited has submitted its response to the issues raised in submissions (RTS) during exhibition of the Environmental Impact Statement for the Mount Owen Continued Operations Project.

The RTS is available on the Department's website by clicking [here](#).

Would you please advise the Department of any comments your agency has by **Wednesday 26 August 2015**. If you would like to discuss this further please contact Matthew Sprott on 9228 2054.

Regards,

Kane
