Content:

I support the submission of the Mt Owen Continued Operations Project. Mining has played an integral role in the growth and development of the Hunter Valley for many years. The continuation of these projects are needed not just for the people directly involved but the much larger contribution that is made to the wider community through avenues such as support services, sponsorship, donations and charity. Many business have been built around servicing the mining Industry which in turn support the local community. The mining industry supports local sporting clubs through sponsorship of teams, donations of sporting uniforms and equipment. The industry also donates to people and organisations in need. Organisations such as the Westpac Rescue Helicopter benefit greatly from the Mining Industry with employees of all mines across the valley donating 5 dollars weekly to the cause. This alone is a huge sum that would not be provided if the Mines did not exist. I believe that the project should be given every opportunity to go ahead.
