**Content:**

I fully support the Mt Owen Continued Operations Project because Mt Owen Mine is an integral part of the communities of Singleton, Muswellbrook and further afield. Mt Owen has been operating at the same site for almost 20 years and has a large workforce. This equates to a large contribution to local business, local industry, infrastructure, and royalties and taxes paid to the State Government. Currently, with the downturn in the mining industry, it would be very detrimental to the area if this project was not approved. I have worked at Mt Owen for over 11 years and in that time have been part of a very vital and community conscious project. Newcastle Port will also be affected with the loss of approximately 8 million tonnes of coal. The flow on effect of this project not being extended would be quite catastrophic. I believe that the Mount Owen Project is very environmentally conscious and has won many awards over the years. Mt Owen makes many large donations to local and national charities and this would be sorely missed as well.
