Subject: Amendment of Development Application - Tangaratta Feedmill

Dear Mr Ware

I refer to your amendment application request which was submitted in accordance with section 37 of the Environmental Planning and Assessment Regulation 2021 (the Regulation). I understand the application seeks to amend your current State significant development (SSD) application for the Tangaratta Feedmill (SSD-58801472).

I note you are seeking to make the following changes to the SSD application:

- reduction in the production capacity of the new feed mill from 17,500 tonnes per week to 14,000 tonnes per week, and retention of the existing mill producing up to 2,200 tonnes per week (a total of 16,200 tonnes per week)
- reduction in number of storage silos from 26 to 14
- removal of the proposed Stage 2 works including:
 - decommissioning of the existing mill
 - additional mill lines 3 and 4
 - 13 grain and meal storage silos
 - 7 buffer storage bins
- increase in height of stacks from 36.615 m to 44.198 m
- new feed mill to operate 24/7, and existing mill to operate during daytime and evening periods (7am – 10pm)
- reduction in truckloads per week from 809 to 750 (new mill) and 135 truckloads per week to 108 for the existing mill.

The Department of Planning, Housing and Infrastructure has reviewed the request and raises no issues with the proposed amendments. Accordingly, as delegate of the Minister for Planning and Public Spaces, I approve the application for the amendment.

Department of Planning and Environment

If you have any questions, please contact Dave Auster on 02 9274 6122 or via email at dave.auster@dpie.nsw.gov.au.

Yours sincerely,
