Statutory Context

Justification and Permissibility

Reason why the proposal is State significant

It has a capital investment cost estimated at more than \$30 million. Therefore, the Project is (SSD) under Part 4 of the EP&A Act. Wind farms are significant because they contribute to the generation of renewable energy, which is a priority for the NSW government and the broader Australian energy sector. Wind power is a clean and sustainable source of electricity, helping reduce greenhouse gas emissions and promoting a transition towards a low-carbon economy.

Which State Environmental Planning Policy (SEPP) does your application relate to?
