Mr Sam Haddad
Director-General
Planning and Infrastructure
33 Bridge Street
SYDNEY 2000

Attention: Matthew Rosel

Dear Mr Haddad

**RESPONSE TO SUBMISSIONS SSDA6 - SSD 13_6116
SICEEP – ICC HOTEL**

We refer to the Response to Submissions (RtS) submitted to Planning and Infrastructure on 26th March 2014 in relation to the International Convention Centre (ICC) Hotel (SSDA6).

Reviewing the submission, we have noted that all the positive changes to the public domain along Darling Drive were perhaps not made clear within the RTS.

Listening to comments raised during the public exhibition period, Lend Lease have made adjustments to the extent of landscaping along Darling Drive fronting the Hotel, which has provided the opportunity to extend the precinct wide Bus Zone in this location. As evident within the amended public domain drawings prepared by HASSELL and accompanying the RTS, there is now provision for two (2) buses to be accommodated within this zone (refer to **Figure 1**).

We trust that this clarification regarding public domain improvements is of assistance to Planning and Infrastructure as it finalises its assessment of the DA. Should you have any queries about this matter, please do not hesitate to contact Alexis Cella or the undersigned on 9956 6962.

Yours faithfully

ALEXIS CELLA
Principal Planner
