Dear Megan

RE: DENILQUIN EAST BESS (SSD-61612229) – SUBMISSIONS REPORT

We confirm receipt of your correspondence of 17 February 2026.

Murray Irrigation Limited ('Murray Irrigation') has reviewed the Response to Submissions Report and accompanying copy emails to your correspondence of 17 February 2026.

Murray Irrigation refers to the page referred to as 'Response to Request for Further Information', table number nine (9) regarding the infrastructure crossing the Moulamein Channel. This is linked with section '4.13 Murray Irrigation'.

Prior to any works being commenced on or near Murray Irrigation's infrastructure, Murray Irrigation requires the applicant to contact Murray Irrigation at least six (6) months prior to construction commencing to allow sufficient time for all the relevant information to be reviewed.

The applicant needs to contact Murray Irrigation Customer Support Team on 1300 138 265 requesting assistance to complete an application for works form. Murray Irrigation will appoint a dedicated team member to assist the applicant with this process.

Upon review of the Submissions Report, in addition to the above, Murray Irrigation is seeking further clarity on the infrastructure required at the location on the Moulamein Channel.

If you have any queries, please contact Penny Sloane by email via governance@murrayirrigation.com.au

Yours sincerely,

Penny Sloane
