18/09/2025

Subject: Hume North Battery Energy Storage System

The Department of Planning, Housing and Infrastructure – Crown Lands has reviewed the proposal. Crown land is included within the project footprint on this occasion. The area is highlighted on the attached map accompanying this correspondence.

Current access to the development lot is via a track in use across Crown Land Lot 98 DP 753356. This land comprises Reserve 753356 for Future Public Requirement Gazette 29 June 2007.

Access across this reserve is currently authorised by way of a Licence (LI368803). The Department does not oppose the continued use of this area for access in accordance with the terms and conditions of that licence.

If alternative access is required, then the proponent has direct access to the local road network via their own property frontage and this should be considered.

If you require any further information, please contact Tony Phelps in Crown Lands, on (02) 69372725 or at tony.phelps@crowland.nsw.gov.au.

Yours sincerely

Grant Marsden,
Area Manager South West
Crown Lands and Public Spaces
