Annie,

Thanks for the note.

Not sure what happened to the original email dated 3 November!

Based on a quick review there seems to be no Prescribed Airspace matters in as far as Bankstown Airport is concerned.

In regards to the plume flux this is a matter for CASA to consider.

Regards,

Mario Bayndrian | General Manager Aviation

Good morning Mario

Shona Rosengren has asked me to kindly follow up with you about the proposed Energy from Waste Facility near Eastern Creek and whether Bankstown Airport had any comments regarding the two attached documents. The NSW Department of Planning and Environment is seeking confirmation from DIRD of their suitability, prior to public notification.

Could you please advise of any feedback you may have, particularly any concerns, with regard to these reports.

Thank you and kind regards

Annie

Hi Mario,

The Department has received the attached documents about an Energy from Waste facility being developed near Eastern Creek.

I understand CASA (Anna Henry from the Office of Airspace Regulation) and Airservices (Tony Aiezza) have reviewed the initial proposal looking for potential impacts on the Western Sydney Airport at Badgery's Creek. I just wanted to check if this location/activity causes any concerns for Bankstown? (The airspace assessment indicates that the location is beyond the protected surfaces for Bankstown).

The contact I have been given for the proponent is

Skye Playfair Redman
