To whom it may concern

THE NEXT GENERATION NSW ENERGY FROM WASTE FACILITY, EASTERN CREEK

This letter is to confirm, that Ramboll, including ENVIRON Australia Pty Ltd¹, has performed an independent review the Environmental Impact Statement, including the relevant technical reports prepared by the various consultants.

The independent review has been performed to verify that the feedback from Government agencies, and feedback received in December 2014, has been adequately addressed.

We have reviewed the following documents:

- Environmental Impact Statement
- Civil Infrastructure Report
- Local Air Quality and Greenhouse Gas Emissions Assessment
- Odour Assessment
- Human Hazards and Risk Assessment
- Noise Report
- Soil and Water Assessment
- Traffic Report
- Preliminary Hazard and Risk Assessment
- Concept Design Report

Furthermore Ramboll was commissioned to prepare a Waste Management Report to support the Environmental Impact Statement, prepared in accordance with the Director-General's Requirements.

Our review involved the following:

- Ramboll undertook technical reviews of material contained in the Environmental Impact Statement and technical reports listed above
- Ramboll undertook adequacy reviews of material contained in the Environmental Impact Statement and technical reports listed above
- Ramboll undertook content review of the Environmental Impact Statement to ensure it operates as a "standalone" document

¹ In December 2014, Ramboll Group (www.ramboll.com) acquired ENVIRON Group; The acquisition positions Ramboll among the top 10 leading environmental consultancies globally with 2,700 experts working within environment, health and water worldwide and a total staff close to 12,500 employees in 35 countries.

We have completed this review and it is now considered that the Environmental Impact Statement addresses the comments from the Government agencies' reviews. Moreover that the Environmental Impact Statement addresses all aspects which are relevant for the application process. We assess the Environmental Impact Statement as being robust and to be ready for Exhibition.

Yours sincerely

Geert Stryg
